ESTD A YEAR.

Entered at Lehi City, Postoffice (Utah) for
transportation through the mails as second-class
matter.

In our last issue we called attention to the move the city was making in regard to purchasing a fire engine for our town, since that time the committee named in our article has visited Eureka, and Payson and made a thorough inspection of the engines those cities have, and the committee is much in favor of the chemical engine of Eureka and feel sure that the chemical engine is far better for our town than the water engine of Payson which as far as it has been tried has been a failure every time. It should be remembered that a chemical engine such as the city is thinking of purchasing—is a water engine also; that is it is a combined engine. The committee will report at the next meeting, and there is but little doubt but what the report will favorably be received. The fact becomes more clear every day that something should be done by way of encouragement to show to those 30 men who have formed themselves into a fire department and offered their services free that the city should by all means furnish them something to work with, if it does not, then thinking people will say the city is ungrateful to those liberal minded men, and if a fire should break out the council would be condemned on every hand and justly to. We say to the council thoroughly investigate take your time and then make the purchase.

Constructive, Not Destructive.

The people of the United States cannot, nor do they care to, turn back the wheel of progress. Industrial evolution has been moving along during the past quarter of a century, and the quack statesmen who attempt to place obstacles on the track do not furnish evidence of good judgment, however patriotic their intentions may be. This evolution, unparalleled as it is in the history of any nation has been made possible by the Protective. If the time has come for the national Government to adopt some plan whereby the industries of the country may be directed in their future development and in their business relations with the general public, let Congress take up the matter as a new problem, one that must be solved by constructive, and not destructive, legislation. The man who erects a substantial building is a public benefactor; the man who undermines foundations is a public nuisance and should be abated.

Pittsburg, Pa., has the reputation of being the smoky city of the United States, and ideas are as much of a rarity down in Pittsburg as is clean linen, and yet one will occasionally find both there. Last May a well-known theatrical manager was passing thru the city and stopped over night at one of the leading hotels. He was assigned a room, and when he stopped before the dresser he

was struck dumb by finding a spotless white towel on the rack. When he recovered from his surprise, he was astonished to find a small card pinned on the towel, on which was written in a dainty feminine hand the words, "a genuine novelty."

A Good Word For Lehi.

Friend Hatch in his talk at the meeting house on Sunday gave the people of our city a good send off for the many improvements made during the last few years. He however gave the major cause for the improvements as the result of the location of the sugar factory here and who can question his judgement on the matter.

The bill to grant suffrage to the women of Wisconsin was defeated in the legislature two to one on April 10th.

Laid to Rest.

City councilman Wm. Bone and family went to Salt Lake Tuesday to attend the funeral of John Wagstaff who died in Farmers ward on Saturday. Mr. Wagstaff was the father of Mrs. Bone, and for several days past she has been at her father's bedside doing all she possible could to cheer and comfort her aged parent during his sickness. Mr. Wagstaff was a native of England and came to Utah in the year 1862. He was 85 years old on the 25th of the present month. He was a thorough gardener. The first locust trees that were planted on the streets of our City were grown by him.

He was greatly respected by all who knew him.

NOTICE.

United States Land Office, Salt Lake City, Utah, Feb. 5, 1901. To whom it may concern: Notice is hereby given that the State of Utah has filed in this office a list No. 21 of lands selected by the said State for a Miners Hospital for Disabled Miners, under section 12, of the Act of Congress approved July 16, 1894. The following tracts embraced in said list, are in a township containing mineral claims of record, viz:

The N¹/₂ NE 1 4 Sec. 13, W¹/₂ SE 1 4 Sec. 33, T¹/₂ S. 3 S., R. 1 E., S. 1 E. Mer. A copy of said list, so far as relates to said tracts, by descriptive subdivisions, has been conspicuously posted in this office for inspection by any person interested, and by the public generally.

Within the next sixty days following the date of this notice, under departmental instructions of November 27, 1896 24 L. D., 45 9, protests or contests against the claim of the State to any of the tracts or subdivisions hereinbefore described, on the ground that the same is more valuable for mineral than for agricultural purposes will be received and noted for report to the General Land Office at Washington, D. C. Failure so to protest or contest within the time specified will be considered sufficient evidence of the non-mineral character of the tracts, and the selection thereof being otherwise free from objection, will be recommended for approval.

A Good Thing.

German Syrup is the special prescription of Dr. A. Boshee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures coughs, Colds and all Lung troubles of the severest nature, removing, as it does the cause of the affection and leaving the part in a strong and healthy condition. It is not an experimental medicine, but has stood the test for years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boshee's German Syrup was introduced in the United States in 1868, and is now sold in every town village and civilized world. Three doses will relieve any ordinary cough. Price 75 cts. the throat, an open avenue by which any number of diseases can find their way into the system. It must be remembered that the throat is very susceptible to attack, particularly in this climate, and this fact makes it doubly true that an ounce of prevention is better than a pound of cure. The moment there's anything the matter with your throat, however slight the trouble, attend to it instantly. One of the best remedies for a sore throat is our Diphtheria Remedy. As this medicine may be needed at any time it should always be at hand. Don't forget that our prescription department is the best in Lehi.
